

Year 1 Summer 1

Facts about Whales

Humpback whales don't eat for most of the year!
Blue Whales are endangered, with there being less than 3000 left in the wild.

The Blue whale is the largest animal.

Whales like to sing.

Whales breathe air into their lungs using a blowhole.

Facts about Oceans

An ocean is a large body of salt water. A sea is a small area of an ocean. Oceans cover nearly 71% of Earth's surface. The water can be warm or cold. The ocean is home to some of the smallest animals on Earth. Zooplankton, for example, are sea animals so small you can see them only with a microscope.

There are 5 oceans: The Atlantic Ocean, The Pacific Ocean, The Southern Ocean, The Arctic Ocean, and The Indian Ocean.

What are we learning?

Maths

Number and place value
Addition
Subtraction
Multiplication
Division
Measures - time
Fractions
Geometry 2D and 3D shape

English

We will be writing a 'finding' tale, looking at conjunctions, complex and compound sentences using vocabulary such as: who, and, so, until, but, because.

Repetition for rhythm.
Adjectives to describe a noun
'ly' openers - Suddenly,
Unfortunately, Luckily

Foundation Subjects

PSHE - Who helps to keep us safe?

Doctor and Nurse
Paramedic
Firefighter
Police

Science - plants

We will be observing, identifying, comparing, classifying and labeling plants in our local area.

Key vocabulary:

leaf leaves
stem trunk branch
blossom flower petals
seed berry fruit

Geography - Weather, Climate and Seasons.

What is the weather like where we live?

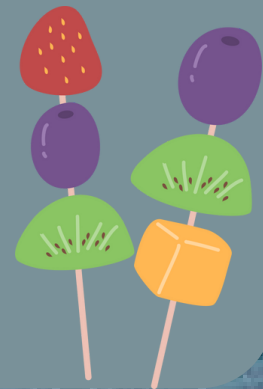

Sunny warm cloudy cool rainy wet snowy cold icy
Can you name the 5 oceans?

DT Cooking - Preparing healthy food

We will be making fruit kebabs!

We will be inviting our grown ups in to help us make and eat our fruit kebabs.

PE - Athletics

We will be preparing for sports day!

Computing

Using technology safely
Using keyboards

RE- Hinduism and Christianity.

How was the universe created?

Music

Your Imagination!
Listening and finding the pulse.

Home Learning

You can submit your home learning in person, email a photo of it to the school office or upload a photo of your home learning to Weduc. All home learning must be in by Wednesday 22nd May.

Challenge	Let's get busy!
Writing	<p>Here are some ideas for writing based on The Storm Whale story. A YouTube version can be found here if you cannot access a paper copy: https://www.youtube.com/watch?v=stTgKoEXS7U Think of some speech bubbles to accompany the illustrations in the book Write your own sequel, in which Noi meets the whale again. Read or listen to <u>The Storm Whale in Winter</u>. Which do you prefer? Why?</p>
Exploring	<p>Can you name and locate the seas around the British Isles? Have you been on or across any of these seas? How could you travel across them?</p>
Story time!	<p>There are lots of books available, both fiction and non-fiction, all about Whales and Oceans. See which books you can find in your home or your local library. We would love to hear about any of your favourites in school!</p>
Research	<p>Can you test different materials to find which are waterproof? Can you use a waterproof material to cover an object and keep it dry at the bottom of the sink or bath?</p>
Let's get messy!	<p>Can you design and make a vessel to explore under the sea? It does not actually have to be able to go under water, but you can try to build something that could!</p>
Threats to our Oceans	<p>What are the problems facing the world's oceans? What can we do to help?</p>
